Work Experience

PT Kalibesar Raya Utama — Front End Developer
02/2022 - PRESENT

- Currently developing the 'Jagain' insurance marketplace application using Vue.JS. This platform allows users to purchase insurance from trusted partners. My key responsibilities include designing and implementing a responsive and engaging user interface to enhance the overall user experience
- Built and maintained the website's UI and email templates
- Collaborated with designers to ensure that UI/UX requirements were met
- Stayed up-to-date with the latest web development best practices and trends
- Wrote clean, efficient, and maintainable code using HTML, CSS, and JavaScript

PT Gardanet Solusindo — Computer Engineering
04/2020 - 06/2020 (APPRENTICESHIP)

- Implemented planning and ensured the CPU operated according to design specifications
- Integrated hardware and software to optimize system performance
- Maintained and repaired existing computer systems

Education

Informatic Engineering — Universitas Satya Negara Indonesia (USNI)
2016 - 2021
